

EPIC® Tile & Grout

Tile & Grout
Restoration
System

Three Step System 1 - 2 - 3!

Step 1: Ultra Deep Clean

- Softens, releases and dislodges deeply embedded grime
- Dissolves and lifts all types of scale
- Is user friendly and non-hazardous
- Does not etch porcelain or ceramic tile
- Opens pores in grout lines
- Prepares tile and grout for colorant and/or EPIC

Step 2: UDT Grout Colorant

- Professional grade
- User-friendly, one-coat application
- Penetrates existing grout lines
- Rejuvenates and recolors
- Low odor
- Available in 12 standard colors
- Custom colors available

Step 3: EPIC High Performance Floor Finish

- Yields high gloss, satin or matte finishes
- Serves as an ideal replacement for traditional acrylic finishes
- Is non-yellowing and is UV stable
- Is extremely chemical and abrasion resistant
- Meets FDA requirements for food preparation areas
- Exceeds OSHA SCOF requirements
- Increases DCOF in wet or slip prone areas

Revised: April 2017
