

I-TECH on a Community Concrete Tabletop

I-TECH

Ultra Durable Technologies I-TECH Countertop Sealer is a premium, low VOC, water-based urethane developed to protect concrete, stone, epoxy and other manufactured countertop surfaces. I-TECH enhances the appearance and depth of concrete and stone. The unique water-based formula bonds directly to concrete and stone without the use of a primer. I-TECH offers protection and resistance to accidental spills of food products, household cleaners and many industrial chemicals.

ADVANTAGES

- Low VOC formula
- Yields an excellent high-gloss or satin finish with minimal maintenance
- Weather resistant for outdoor use
- Greatly reduces the probability of staining
- Clear non-yellowing UV stable
- Excellent adhesion and abrasion resistance
- Easy to clean and maintain

USES

Interior or exterior concrete, stone and manufactured countertops, sinks, surrounds and more

APPLICATIONS

- Residential: Kitchen, bathroom and outdoor living spaces
- Commercial: Restrooms, bar tops, fireplace surrounds, benches and outdoor patios
