About Expanded Technologies

Floor, Furniture and Surface Protectors for All Environments

The First Peel and Stick Heavy Duty Felt Pads
Over 30 years ago Richard Bushey was remodeling a turn of the century schoolhouse with original pine floors, when he realized that the scrapes and scratches on the floors were caused by the constant movement of chairs and desks. His solution? The first peel and stick heavy duty felt pad to place under furniture legs. They protect floors from scratches, gouges, and dents and can help reduce the movement stress on furniture joints when furniture moves with difficulty.

Expanding Product Line
Richard Bushey began manufacturing felt pads in 1981, and Expanded Technologies was founded in 1987. Bushey has continued to invent ingenious ways to protect floors and furniture, and today the company offers a variety of products. He still holds many related patents for surface protection products, and the company is one of the top three in the U.S. for this category.

Useful in All Environments
Expanded Technologies products are helpful in any environment: homes, offices, hospitals, restaurants, hotels, and schools. The products reduce maintenance costs by providing a variety of solutions that reduce damage and wear caused by furniture.

Show & Tell Sales Kits
Expanded Technologies’ full size sample kit holds up to twenty-five different product samples. Our new mini kit holds samples of 5 of our best selling items in a small, easy to carry case.

Now, you can examine each product closely and even test them. Samples are easy to find in the plastic partitioned box. Simply look at the interior diagram to find the correct product. Each image is clearly labeled with recommended surfaces, available sizes, colors and packaging choices.

Show & Tell Sales Kits Include:
Item # DISP0069
Clear Sleeve™ Floor Protectors, 1", 1¼", 1½", and 1¾"
Tap In Sliders, 1"
Heavy Duty Tap In Felt Pads, ¾"
Replacement Chair Tips with Felt / Walker Tips, 1¼"
Replacement Chair Tips with Felt, 1”, ¾”, ¾¼”
Formed Felt™ Floor Savers®, 1” and 1¼”
Slip-On® Floor Savers®, 1½” and 1¼”
Wrap-Around® Floor Savers®, large and small
Wrap-Arounds® for Music Stands, ¾" x 1¼"
CasterTire™ Floor Savers®, ¾” x 1¾”
Slip-Over® Floor Savers®, 1½” and 1¼”
Snap-On Floor Savers®, 1¼”
Heavy Duty Felt Pads, ¾”, 1", and 1¾”

Mini Sales Kits Include:
Item # DISP0074
1½” Slip-Over Floor Saver®
Large Wrap-Around® Floor Saver®
1” Felt Pads
1½” Slip-On Floor Saver®
¾” & 1¼” Chair Tips with Felt
Measuring Tape

Customization available for your company. Minimum orders apply.

Doorstop Kits Include:
Item # Doorstop-kit
Yellow Gripper® Doorstop
Grey Safety Release™ Flip Down Doorstop
Blue Door Wedge

Expanded Technologies’ Products
Outperform the Competition

The felt and adhesive materials used in Expanded Technologies’ products were tested against the products from the leading competitors. In every category, the materials used by Expanded Technologies performed significantly better. The results are shown in the table.

**Adhesion Tests (Test #101 – Tensile Test and Test #102 – Shear Strength)**

By testing the adhesion of the heavy duty felt pad, it can be assessed how likely the pad is to stick to the furniture leg. The pad must adhere to the furniture leg in order to provide benefits. The tests determine how well a pad can withstand the forces of pull and shear caused by furniture sliding.

**Density Tests (Test #201 – Porosity Measurement and Test #202 – Compression Measurement)**

By measuring the porosity of the heavy duty felt pad, the usable space for dirt particles to collect can be measured. There must be sufficient space for dirt particles to be absorbed within the felt pad. Without this space, the dirt particles will remain on the outside of the felt pad and could cause marks and scratches to floors.

**Pliability Tests (Test #301 – Pliability Measurement)**

By measuring the pliability of the heavy duty felt pad, the ability of the pad to adapt to the shape of the furniture leg can be determined. The felt pad must cover the bottom of the furniture leg to afford maximum protection and ensure that the pad stays attached to the leg.

**Durability Tests (Taber Test)**

By measuring the durability of a felt pad, its longevity can be estimated, based on the extent of the wear caused by pressure and friction applied to the pad. The Taber Test is used to correlate felt loss from furniture moving. There is pressure and friction applied against the pad as furniture is moved.

Heavy Duty Felt Pads

"Ours Stick Where Others Fail"

Heavy Duty Felt Pads reduce noise and protect floors from scratches, dents, and rust stains. With peel and stick backs, our heavy duty felt pads help keep furniture joints from loosening, protect any type of hard floor, and reduce noise associated with sliding furniture.

Use Heavy Duty Felt Pads to
- Protect floors from scratches and dents
- Guard against rust stains
- Help prevent furniture joints from loosening
- Reduce noise

Recommended Uses
- Desks
- Chairs
- Tables
- Stools
- File cabinets
- End tables
- Couches
- Chests of drawers
- Armoires
- Bookcases
- Entertainment centers

Recommended Surface Type

- Wood
- VCT (Vinyl) tile and linoleum
- Furniture surfaces
- Marble

Slip-Over® Floor Savers® protect hard floor surfaces from damage. The Slip-Over® consists of a reinforced felt bottom and a vinyl sleevelet that encases the existing chair or table glide. The sleevelet is designed to fit snugly around an existing glide and to stay on tightly, without adhesive. The Slip-Over® prevents floor damage and reduces noise associated with moving furniture. Our installation tool, included free with the purchase of 100 or 1000 piece packages, makes installation easy on most swivel glides.

Use Slip-Over® Floor Savers® to
- Protect floor surfaces from scratches and rust stains
- Help keep rooms quiet by reducing noise when moving chairs and tables
- Reduce furniture damage by alleviating stress on joints
- Extend the life of original furniture glides

Recommended for
Hardwood floors, VCT, vinyl, linoleum, finished concrete and ceramic tile floors

Sizes
1¼” (fits over ¾” to ¾” glide)
1½” (fits over 1” to 1¾” glide)

Colors
Grey sleeve with brown felt

Recommended Surface Type
- Ceramic tile
- VCT (Vinyl) tile and linoleum
- Wood
- Marble

Slip-On® Floor Savers®

Slip-On® Floor Savers® protect hard floor surfaces from damage. The tough Slip-On® consists of a vinyl sleeve with a reinforced rounded felt bottom. Simply slide Slip-On® Floor Savers® over chair and table legs to prevent floor damage and to reduce noise associated with moving furniture. They slip easily over round or square legs and have been re-engineered to grab the chair leg even tighter. Slip-On® Floor Savers® last at least four times longer than standard felt protective pads.

**Recommended Uses**
- Chairs
- Stools
- Desks

**Use Slip-On® Floor Savers® to**
- Protect floor surfaces from scratches and rust stains
- Help keep rooms quiet by reducing noise when moving chairs and tables
- Reduce furniture damage by alleviating stress on joints
- Extend the life of original furniture glides

**Recommended for**
- Vinyl, linoleum, wood, tile, and marble

**Sizes**
- 1¼" x 1½"

**Gripper® Strips**
For small legs, use our Gripper® Strip under the Slip-On® for a tighter fit.

**Recommended Surface Type**
- Ceramic tile
- Wood
- VCT (Vinyl) tile and linoleum
- Marble

**Gripper® Strips Application**
- Gripper® Strips
- For smaller legs, apply Gripper® Strip
- Slip-On® installed

- ½ x 3 x ⅛
  - N/A
  - 016051-1K
  - 1000

For square legs, order ½" larger than actual size.
Formed Felt™ Floor Savers® protect hard floors from damage and reduce noise dramatically. The reinforced felt material creates added durability to withstand substantial wear and tear. The formed sides fit securely around chair and table legs to ensure they stay put while still allowing for simple furniture movement.

**Recommended Uses**
- Desks
- Folding Chairs
- Table Legs
- Bar Stools

**Easy to Install**
Peel back and apply to clean, dry surface

**Use Formed Felt™ Floor Savers® to**
- Protect floor surfaces from scratches and rust stains
- Reduce noise associated with moving furniture
- Extend the life of the original furniture glide

**Recommended Surface Type**
- Wood
- Ceramic tile
- Finished concrete
- VCT (Vinyl) tile and linoleum

CasterTire™ Floor Savers®

CasterTire™ Floor Savers® convert damaging, hard plastic casters into soft, quiet, floor saving wheels. Standard hard plastic casters cause scratching and damage to VCT and hard surface floors by grinding in dirt and grit. Our universal CasterTire™ is made of soft non-marking vinyl and is recommended to protect all surfaces, especially VCT, hardwood, and ceramic tile.

Recommended Uses
- Chairs
- Tables
- Appliances
- Computer chairs

New Model now available with easier to install shrink wrap method

Use CasterTire™ Floor Savers® to
- Fit over existing hard plastic caster wheels
- Prevent floor damage and reduce maintenance costs
- Make casters roll smoothly and quietly
- Prevent sliding and skidding
- Prevent floor marking
- One size fits 1¾” – 2¼” plastic casters

Recommended for
Hardwood floors, VCT, vinyl, linoleum, finished concrete and ceramic tile floors

Sizes
3/8” x 1¾”

Colors
Charcoal

Recommended Surface Type
- Wood
- Sealed concrete
- Ceramic tile
- VCT (Vinyl) tile and linoleum

Wrap-Around® Floor Savers®

Wrap-Around® Floor Savers® provide floor protection for chairs with sled bases.

**Improvements**
- Easy to apply
- Attaches to itself for longer lasting, improved hold
- Conforms to glide or rail to achieve a perfect fit
- NEW vinyl wear cushion distributes weight, causing less wear to pad and floor

**Recommended Uses**
- Sled based style chairs
- Bookcases
- Desks and credenzas
- File cabinets
- Stackable chairs
- Music stands

**Use Wrap-Around® Floor Savers® for**
Sled based style chairs, bookcases, desks and credenzas, stackable chairs, and music stands

**Sizes**
- ¾” x 3½” Apply directly to stand or rail
- 1½” x 2½” Apply directly to rail
- 1½” x 3½” Apply over existing guide

**Colors**
- Beige, Grey, Black

Clear Wrap-Around® Floor Savers®

Clear Wrap-Around® Floor Savers® are developed to protect floors from damage caused by chairs with sled bases or rails. They are easy to install and can be applied directly to the rail or over top of the existing glide. The Clear Wrap-around® will blend in with the furniture so you hardly notice they are on.

**Use Clear Wrap-Around® Floor Savers® to**
- Protect floor surfaces from scratches and preserve floor finishes
- Help keep rooms quiet by reducing noise created by moving chairs

**Recommended for:**
- Hardwood floors, VCT, Vinyl, Linoleum, Finished concrete and ceramic tile floors

**VersaGlide™ Formed Felt**

Durable and easy to install, this system consists of a nail-in nylon base and a felt protector. The disc is nailed to any wooden furniture leg, and then the peel and stick felt tip is applied to the nylon base. Since the base is convex rather than flat, pressure applied to the felt is much better distributed than if the felt were applied directly to the wooden leg. The felt is engineered for long life, but if it wears out, you simply pull it off the old felt and replace it with a new felt pad—no new nail holes!

**Use VersaGlide™ Formed Felt to**
- Preserve floor finishes and stop floor scratches for all types of wood furniture
- Help keep rooms quiet by reducing noise created by moving furniture

**Recommended for:**
- All hard floors, including VCT, LVT, and hardwood

Replacement Chair Tips

Replacement Chair Tips reduce noise and protect all types of floors—they’re perfect for schools. This durable Chair Tip consists of a vinyl sleeve and is available with or without a reinforced rounded felt bottom. Simply slide the Chair Tip over the chair leg to prevent floor damage and to reduce noise associated with moving chairs. Chair Tips slip easily over chair legs and stay put without adhesive. They are durable, and the Chair Tips with felt bottoms last longer than standard felt protective pads.

**Recommended Uses**
- Tables
- Chairs
- Stools
- Desks
- Bar stools
- Walkers

**Tips for Walkers, Tables and Chairs**
- Can be used on round or square legs. For square legs, order one size larger.

---

*For square legs, order one size larger.*
Wobble Chair Floor Savers®

Wobble Chair Floor Savers® are designed to eliminate floor damage and noise caused by wobble chairs. They are manufactured from soft, flexible, ultra durable material that adheres quickly and securely to the bottoms of the chairs, which are often used in classrooms with young children to help keep them focused. The peel and stick pads are attached to the bottom of any wobble chair to prevent floor scratches and reduce noise.

Use Wobble Chair Floor Savers® to
- Protect floor surfaces from scratches and preserve floor finishes
- Help keep rooms quiet by reducing noise created by students rocking on the chairs

Recommended for
VCT, LVT, and hardwood

Gripper® Pads

Gripper® Pads stop furniture from moving and sliding and reduce vibration. Made of thick, flexible vinyl with peel and stick backs, these Gripper® Pads protect floors from scratches and guard against rust stains. Placed under machines like washers and dryers, they help absorb vibration.

Use Gripper® Pads to
- Stop furniture from moving and sliding
- Guard against rust stains on floors

Recommended for
All floors, especially hard surfaces like marble, ceramic tile, vinyl, and wood floors

Protective Felt Strips

Protective Felt Strips have unlimited uses. They protect walls from damage caused by moving carts and protect floors from scratches, dents, and rust stains. With peel and stick backs, they are easy to apply and will protect all types of hard floors or walls and reduce noise associated with sliding furniture.

**Use Protective Felt Strips to**
- Prevent damage to walls caused by moving carts
- Protect floors from long flat surfaces like the bottom of a bookcase, a rocking chair, file cabinet, etc.
- Reduce noise from sliding furniture

**Recommended for**
Ceramic tile, wood floors, furniture surfaces, vinyl tile and linoleum, walls, and concrete

**Sizes**
- Strips: ½" x 4", ½" x 6", 1" x 4", 1" x 6"
- Rolls: ½" x 60", 1" x 60", 1½" x 60"

**Color**
- Brown

**Recommended Uses**
- AV carts
- Garbage carts
- Maid carts
- Brooms
- Mop buckets
- Tables
- File cabinets
- Desks
- Chests
- Rocking chairs
- Bookcases

**Recommended Surface Type**
- Ceramic tile
- Wood
- VCT (Vinyl) tile and linoleum
- Walls

Clear Sleeve™ Floor Protectors

New Clear Sleeve™ Floor Protectors prevent damage normally caused by moving furniture. The transparent, flexible sleeve securely forms to the size and shape of chair or table legs, eliminating the need for adhesive. The cushioned felt tip lasts longer than standard felt pads, dampens noise, and distributes weight evenly for better furniture wear.

Use Clear Sleeve™ Floor Protectors to
• Protect floor surfaces from scratches and rust stains
• Distribute weight evenly to increase furniture longevity
• Reduce noise associated with moving furniture

Recommended for
All hard floor surfaces

Versatile
One design fits multiple shapes and sizes

Attractive
Transparent sleeve blends in with most furniture

Recommended Uses
• Desks
• Folding chairs
• Table legs
• Bar stools

Recommended Surface Type
- Ceramic tile
- Finished concrete
- VCT (Vinyl) tile and linoleum
- Wood
- Marble

Snap-On Floor Savers®

Recommended Uses
- Tables
- Chairs
- Desks

Recommended Surface Type
- Wood
- Ceramic tile
- Finished concrete
- VCT (Vinyl) tile and linoleum

Snap-On Floor Savers® feature reinforced felt covering a durable plastic frame that snaps over existing swivel glides. These Floor Savers® are easy to install, and the deep well and sturdy rim ensure they remain attached where others fall off.

Use Snap-On Floor Savers® to
- Protect floors from scratches and rust stains
- Help keep rooms quiet by reducing noise when moving chairs and tables
- Reduce furniture damage by alleviating stress on joints
- Extend the life of the original furniture glide

Recommended for
- All hard floor surfaces including VCT, luxury vinyl, ceramic tile, finished concrete, and hardwood

Sizes
- Fits 1 1/8” – 1 1/4”
- Color
- Brown

Vending Machine Floor Savers®

Recommended Uses
- Vending machines

Recommended Surface Type
- Wood
- Ceramic tile
- Finished concrete
- VCT (Vinyl) tile and linoleum

Vending Machine Floor Savers® protect floors from heavy vending machines. The reinforced felt surrounds a solid cup, allowing machines to be moved for cleaning and maintenance without damaging floors. The formed sides and powerful adhesive ensure the floor savers stay in place.

Use Vending Machine Floor Savers® to
- Protect floors from scratches, dents, and rust stains, even under the heaviest machines

Recommended For
- All hard floor surfaces including VCT, luxury vinyl, ceramic tile, finished concrete, and hardwood

"Ours Stick Where Others Fail"
Sliders help move furniture easily and keep furniture joints from loosening. They are polymer discs with padded peel and stick backs. Placed under heavy furniture, like file cabinets and bookcases, sliders help move large items without scratching the floor and help prevent them from falling over while moving. Placed under smaller pieces of furniture, they help to slide tables and chairs across carpets—or any other surface—effortlessly.

**Recommended Uses**
- Chairs
- Tables
- Stools
- Desks
- File cabinets
- End tables
- Couches
- Armoires
- Bookcases
- Chests of drawers
- Entertainment centers
- Countertop appliances

**Use Sliders to**
- Protect carpet from snagging and tearing
- Slide furniture easily across floors
- Slide heavy file cabinets and bookcases effortlessly across carpets

**Recommended for**
Most floor surfaces, especially carpets and ceramic tile

Clear Carpet Sliders

Clear Carpet Sliders help move furniture easily while remaining inconspicuous. The transparent polymer discs adhere to furniture with a padded peel and stick back. Placed under heavy furniture, like couches and entertainment centers, Clear Carpet Sliders help move large items without tearing the carpet and prevent them from falling over while moving.

**Use Clear Carpet Sliders to**
- Protect carpet from snagging and tearing
- Slide furniture easily across carpet

**Recommended for**
- Carpet

Recommended Surface Type
- Carpet
- Sealed concrete
- Ceramic tile
- Patio surface

Commercial Grade Sliders protect floors in the most rugged commercial environments. A unique, form-fitting adhesive system keeps the sliders on furniture legs during heavy use. With this system, the adhesive foam pad compresses and actually molds around the leg and adheres to it, so the pads and sliders stay firmly in place.

The Commercial Grade Sliders help move furniture easily and prevent furniture damage by alleviating stress on joints. Commercial Grade Sliders are recommended for any heavy use application such as schools, restaurants, hotels, and offices.
Wrap-Around® Sliders

Wrap-Around® Sliders provide replacement glides and floor protection for chairs with sled bases.

- Peel and stick backs
- Pads stick tight
- Formed sides and stress relieving design ensure the pad will stay on

Recommended Uses
- Sled based style chairs
- Bookcases
- Desks and credenzas
- File cabinets
- Stackable chairs

Recommended Surface Type
- Ceramic tile
- Sealed concrete
- Carpet

Recommended for
Most surfaces, especially carpets and ceramic tile

Sizes
1 1/2” x 1 3/8”, 1 3/8” x 1 3/8”

Colors
White, Black

Slip-Over® Sliders

Slip-Over® Sliders protect carpet and allow furniture to slide easily. The Slip-Over® Slider consists of a polymer disc bottom and a vinyl sleevelet that encases the existing chair or table glide. The sleevelet is designed to fit snugly around an existing glide and to stay on tightly without adhesive.

Use Slip-Over® Sliders to
- Protect floor surfaces and guard against rust stains
- Reduce furniture damage by alleviating stress on joints

Recommended Uses
- Slide furniture easily across carpet and ceramic tile
- Protect carpets from snags and tears
- Extend the life of original furniture glide

Recommended for
Ceramic tile and carpet

Sizes
1 1/2” (fits 7/8” – 1 1/8” glides)

Slide-All™ Sliders

Slide-All™ Sliders help move large furniture and equipment easily, protect carpet and flooring and keep furniture joints from loosening. They are specially formulated reusable sliding disks with a non-skid foam backing. Placed under heavy furniture and equipment, like sofas, file cabinets, bookcases, fitness equipment, and factory equipment, Slide-All™ Sliders help move large items and help prevent them from falling over while moving. Slide-All™ Sliders make it possible for one person to move things that might normally require two or three people. Rearranging layouts for fitness centers, offices or factories is easy and fast with Slide-All™ Sliders.

Use Slide-All™ Sliders to
• Slide heavy furniture and equipment easily across floors
• Slide heavy sofas, file cabinets and bookcases effortlessly across carpets
• Protect carpets from snagging and tearing
• Protect hard floor surfaces from scratching with Slide-All™ Sliders with Felt

Slide-All™ Sliders are recommended for
Most floor surfaces, especially carpets and ceramic tile

Slide-All™ Sliders with Felt are recommended for
Most floor surfaces, especially wood, vinyl tile, and linoleum

Bumper Pads

Super Quiet Bumper!

Polyurethane and Felt Bumpers protect surfaces from damage caused by smaller items when they are moved. Place the bumpers on cabinet drawers and doors to prevent noise and absorb impact when they shut. Polyurethane bumpers can also be used on electronic equipment or cutting boards to stop them from vibrating and moving. The acrylic adhesive will prevent the bumper from coming off during use.

Formed felt bumpers were created to fit on the outer edge of inset doors and drawers. Its design stops the bumper from compressing, increasing durability to prevent noise and absorb impact.

Recommended Uses
- Cabinet doors
- Cutting boards
- Drawers
- Picture frames
- Sliding doors
- Computers
- Appliances
- Office equipment
- Desktop calculators
- Door jambs
- Outer edge of inset doors and drawers

Recommended for
Cabinet doors, drawers, picture frames, sliding doors, computers, appliances, office equipment, desktop calculators, door jambs, outer edge of inset doors and drawers

Safety Release™️
Flip Down Doorstops

On the Door, Off the Floor

Our modern Flip Down Doorstop combines versatility, functionality and durability for the ultimate doorstop. Easy to install, the clip automatically adjusts to fit residential or commercial doors, and the swing arm is adjustable to fit floor clearances greater than \( \frac{1}{4}'' \) and less than \( 2\frac{1}{2}'' \). Once installed, simply flip the arm down to engage and lift to disengage. Our Flip Down Doorstop will not damage either the door or floor. In case of an emergency, the arm will release when sufficient force is applied to the door.

Once they're installed, these doorstops stay put!

Install in seconds
• Clips onto the door
• No tools needed

Easy to use
• Flip down—it’s a doorstop
• Flip up—it tucks out of the way
• Easily adjusts, while in the upright position, for different door or floor clearances greater than \( \frac{1}{4}'' \) and less than \( 2\frac{1}{2}'' \)
• Operates with your foot or hand

Eliminates trip hazards
Releases with force in case of emergency

How to operate
To engage the Flip Down Doorstop:
Flip the arm down with your foot or hand

To release the Flip Down Doorstop:
Lift the arm up with the side of your foot or hand

<table>

<td>017003-24pc</td>
</tr>
</tbody>
</table>

How to Install
Slide clip onto the bottom of the door. Requires \( \frac{1}{4}'' \) clearance between door and floor. Locate the proper hole setting. Arm should be set at approximately 60° to 80° when in the down position.

Spread swing arm in the upright position (swing arm only adjusts in the upright position).
Insert hinge pins into the proper holes.

Use hand or foot to engage or disengage. Swing arm can be reversed if desired.
**Door Wedges**

The Door Wedge fits securely between the door and door jamb to keep doors open. For standard doors, simply place the wedge above the hinge, between the door and the door jamb. For doors with overhead closers, the wedge may be placed between the door closer arm and door jamb. Made from durable, dense foam, the Door Wedge is sturdy and braces the door securely, yet will not damage the door or bend the hinge. With the Door Wedge, the floor remains clear, making it an ideal tool for cleaning or moving crews.

Terms & Conditions

Terms
Our terms for approved customers are Net 30 days. We welcome your company check, Visa, or MasterCard. We charge $25 for each returned check. Recurrent bounced checks will result in instituting terms of C.O.D. cash.

Initial Orders
New retailers must provide a certificate of Retail Tax Exemption and company ownership information. To open an account, please fill out a Credit Application. Initial orders can be placed by credit card until your account is established.

Returns
Each order is carefully picked, packed, and delivered to arrive in excellent condition. If you find a problem with your order, because it is incorrect, damaged, or defective, you must receive a return authorization number before returning any portion. Please call your Expanded Technologies representative to explain the problem. It is helpful to have your invoice number showing when you purchased the item(s). You must include the completed Expanded Technologies Return Form when you send us your returned merchandise.

All merchandise must be returned in sellable condition and will be inspected before credit is issued. A credit will not be issued for damaged merchandise. A 10% restocking fee is charged for all returned merchandise.

Expanded Technologies does not guarantee sale of any product.

Overages/Shortages
Expanded Technologies tries to ensure all orders are shipped complete. However, orders should be received and verified by your employees. If you discover a merchandise overage or shortage, please notify us within one working day.

Possession of this catalog does not constitute an ability to purchase from Expanded Technologies.
