

## 1. IDENTIFICATION

**Product Name** Tile Pro Acid

**Product Code**

**Recommended use and restrictions**

**Intended use** Cleaning agent

**COMPANY IDENTIFICATION**

Surface Cleaning Innovations, LLC

10445 Cogdill Road

Knoxville, TN 37932

Phone:

865-343-0712

**EMERGENCY TELEPHONE NUMBER**

CHEMTREC +1 800-424-9300

## 2. HAZARDS IDENTIFICATION

**Hazard Classification**

Serious Eye Damage	Category 1
Skin Corrosion	Category 1A
Acute Toxicity, Oral	Category 4

**Hazard Pictograms**

**Signal Word**

DANGER!

**Hazard Statements**

H302: Harmful if swallowed

H314: Causes severe skin burns and eye damage

H318: Causes serious eye damage

**Precautionary Statements**

P264: Wash skin thoroughly after handling.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P301+312: IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.

P302+352: IF ON SKIN: Wash with plenty of water

P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.

P501: Dispose of contents/container to an approved waste disposal facility in accordance with local/regional/national/international regulations

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

**Chemical Nature** Mixture

#### Hazardous Ingredients and Impurities

Chemical Name	CAS#	Percentage
Urea hydrochloride	506-89-8	1 – 10%
Phosphoric acid	7664-38-2	1 – 5%

### 4. FIRST AID MEASURES

#### Description of first-aid measures

##### General Advice

- First Aid responders should pay attention to self-protection and use the recommended protective clothing. If potential for exposure exists refer to Section 8 for specific personal protective equipment.
- Show this material safety data sheet to the doctor in attendance.

##### In case of inhalation

- Move affected individual to fresh air and keep comfortable for breathing. If not breathing, give artificial respiration; if by mouth-to-mouth use rescuer protection (pocket mask, etc.). If breathing is difficult, oxygen should be administered by qualified personnel. Call a physician if necessary.

##### In case of skin contact

- In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes.

##### In case of eye contact

- Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.
- Seek medical advice

##### In case of ingestion

- If swallowed, seek medical attention. Do not induce vomiting unless directed to do so by medical personnel.

##### Most important symptoms and effects, both acute and delayed

- Aside from the information found under Description of first aid measures (above) and Indication of immediate medical attention and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicology Information.
- Skin contact may aggravate an existing skin disease.

##### Notes to physician

- All treatments should be based on observed signs and symptoms of distress in the patient.
- Treat symptomatically.
- There is no antidote.

### 5. FIREFIGHTING MEASURES

**Flash Point** > 201°F (Pensky Marten Closed Cup)

**Autoignition Temperature** No data available

**Flammability/Explosive limit** No data available

### **Extinguishing media**

#### **Suitable extinguishing media**

- Water fog or spray
- Dry chemical fire extinguishers
- Foam
- Carbon dioxide CO<sub>2</sub>

#### **Unsuitable extinguishing media**

- None known

### **Special hazards arising from the substance or mixture**

#### **Specific hazards during fire fighting**

- Hazardous decomposition products may form while on fire

#### **Hazardous combustion products**

- Ammonia, hydrochloric acid, and oxides of carbon

### **Advice for fire fighters**

#### **Special protective for fire fighters**

- Wear a positive-pressure self-contained breathing apparatus (SCBA) and full protective clothing

#### **Firefighting methods**

- Do not use a direct water stream as it may spread fire.
- Isolate fire and deny unnecessary entry. Standard procedure for chemical fires.

## 6. ACCIDENTAL RELEASE MEASURES

### **Personal precautions, protective equipment and emergency procedures**

- Isolate area and deny unnecessary entry
- Wear suitable protective equipment.
- Refer to Section 8 "Exposure controls/ personal protection"
- Ventilate area of leak or spill

### **Environmental precautions**

- Prevent spill material from entering soil, ditches, waterway or groundwater
- Spills may be reportable to the National Response Center and/or to state and local agencies

### **Methods and materials for containment and cleaning up**

- Absorb material with sand, dirt, diatomaceous earth, vermiculite, etc...
- Shovel or sweep up material
- Place in a container for disposal according to local, state, or federal regulations

## 7. HANDLING AND STORAGE

### **Precautions for safe handling**

- Wear personal protective equipment and observe good industrial hygiene practices.

**Conditions for safe storage, including incompatibilities**

- Store in the original container.
- Keep the container tightly closed when not in use.
- Keep away from open flames, hot surfaces, and ignition sources
- Keep away from any incompatible materials

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

Due to variations in safety procedures, work environments, and handling practices, these recommendations should be viewed as general guidance. Most equipment manufactures can assist with the use and maintenance of worker protection equipment.

**Control parameters**

Component	Regulation	Type of Listing	Value
Phosphoric acid	OSHA	TWA	1 mg/m3
	ACGIH	TWA	1 mg/m3

**Exposure controls**

**Engineering measures**

- Use engineering controls to keep airborne levels below exposure limits to minimize employee exposures.
- Effective exhaust ventilation system
- Eye wash facilities and emergency shower should be available when handling this product

**Individual protection measures**

- Eye/face protection: Safety glasses with side shields
- Skin/hand protection: Wear suitable protective gloves, clothing, and footwear.
- Respiratory protection: Wear suitable respiratory equipment in cases of insufficient ventilation. Select NIOSH.MSHA approved equipment in accordance to industrial recommendations or regulatory standards.

**Hygiene measures**

- Practice good personal hygiene measures, such as washing hands after handling the material and before eating, drinking, smoking, applying cosmetics, or using the toilet.

**9. PHYSICAL AND CHEMICAL PROPERTIES**

**Appearance**

**Physical state**

Liquid

**Form**

Liquid

**Color**

Light straw

**Odor**

Slight

**Odor Threshold**

No data available

**pH**

< 2 (100%)

**Melting/freezing point**

< 32° F

**Boiling point**

212° F

**Flash Point**

> 201°F (Pensky Marten Closed Cup)

**Evaporation Rate**

No data available

**Flammability (solid)**

No data available

**Flammability (gas)**

No data available

<b><u>Flammability (liquid)</u></b>	No data available
<b><u>Upper/lower flammability or explosive limits</u></b>	
<b><u>Lower (%)</u></b>	No data available
<b><u>Upper (%)</u></b>	No data available
<b><u>Autoignition temperature</u></b>	No data available
<b><u>Vapor pressure</u></b>	No data available
<b><u>Vapor density</u></b>	No data available
<b><u>Relative Density</u></b>	1.0 – 1.1 (25°C)
<b><u>Solubility</u></b>	Soluble (water)
<b><u>Partition coefficient</u></b>	No data available
<b><u>Decomposition temperature</u></b>	No data available
<b><u>Viscosity</u></b>	No data available
<b><u>Volatiles by volume</u></b>	No data available

## 10. STABILITY AND REACTIVITY

<b><u>Reactivity</u></b>	Product is stable and non-reactive under normal conditions of use.
<b><u>Chemical stability</u></b>	Product is stable under normal conditions.
<b><u>Possible hazardous reactions</u></b>	None known
<b><u>Conditions to avoid</u></b>	Mixing with incompatible materials
<b><u>Incompatible Materials</u></b>	Strong oxidizing agents, and alkalis
<b><u>Hazardous decomposition products</u></b>	Ammonia, hydrochloric acid, and oxides of carbon

## 11. TOXICOLOGICAL INFORMATION

### **Information on likely routes of exposure**

<b><u>Inhalation</u></b>	Inhalation of mists could have a corrosive effect on the respiratory tract
<b><u>Skin contact</u></b>	Causes skin corrosion
<b><u>Eye contact</u></b>	Risk of serious damage to the eyes.
<b><u>Ingestion</u></b>	Harmful if swallowed. Causes burns to the mouth and throat.

### **Acute toxicity**

<b><u>Acute oral toxicity</u></b>	No data available
<b><u>Acute inhalation toxicity</u></b>	No data available
<b><u>Acute dermal toxicity</u></b>	No data available
<b><u>Acute toxicity (other)</u></b>	No data available

### **Skin corrosion/irritation**

Causes skin corrosion

### **Serious eye damage/irritation**

Risk of serious damage to the eyes.

### **Respiratory or skin sensitization**

Does not cause sensitization

### **Germ cell mutagenicity**

No data available

### **Carcinogenicity**

Not classified as a carcinogen by IARC, ACGIH, NTP, or OSHA

### **Toxicity for reproduction and development**

<b><u>Reproductive toxicity</u></b>	Not expected to cause reproductive effects.
<b><u>Developmental toxicity</u></b>	Not expected to cause developmental effects.

### **Specific target organ toxicity**

**Single exposure** No data available  
**Repeated exposure** No data available

**Aspiration toxicity** No data available

## 12. ECOLOGICAL INFORMATION

### Ecotoxicity

**Acute toxicity to fish** No data available  
**Acute toxicity to aquatic invertebrates** No data available  
**Toxicity to aquatic plants** No data available  
**Toxicity to microorganisms** No data available  
**Chronic toxicity to fish** No data available  
**Chronic toxicity to aquatic invertebrates** No data available  
**Chronic toxicity to aquatic plants** No data available

### Persistence and degradability

**Biodegradability** Expected to be biodegradable

### Bioaccumulative potential

**Partition coefficient: n-octanol/water** No data available  
**Bioconcentration factor (BCF)** No data available

**Mobility in soil** No data available

**Other adverse effects** No data available

## 13. DISPOSAL CONSIDERATIONS

### Disposal instructions

Dispose of contents/container in accordance with local/state/federal regulations.

### Hazardous waste code

Regulated as a hazardous waste. D002

### Waste from residues/unused products

Dispose of contents/container in accordance to local/state/federal regulations.

### Contaminated packaging

Empty containers should be taken to an approved waste handling site for recycling or disposal.

## 14. TRANSPORTATION INFORMATION

	UN Number	Description	Hazardous Class	Packing Group	Label
DOT		Not regulated for transport			
IATA	UN3265	Corrosive Liquid, Acidic, Organic, n.o.s. (Urea Sulfate)	8	II	

<b>IMDG</b>	UN3265	Corrosive Liquid, Acidic, Organic, n.o.s. (Urea Sulfate)	8	II	
-------------	--------	--	---	----	---

**Marine Pollutant (Yes/No)**

No

**Notes**

Please refer to latest shipping document for the most up to date shipping information including exemptions and special circumstances. Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations

## 15. REGULATORY INFORMATION

**Inventory Information**

- United States TSCA Inventory
- Canadian Domestic Substances List (DSL)
- Australia Inventory of Chemical Substances (AICS)
- Japan. CSCL - Inventory of Existing and New Chemical Substances
- Korea. Korean Existing Chemicals Inventory (KECI)
- China. Inventory of Existing Chemical Substances in China (IECSC)

**Status**

On TSCA Inventory

All components of this product are on the Canadian DSL

On the inventory, or in compliance with the inventory

On the inventory, or in compliance with the inventory

On the inventory, or in compliance with the inventory

On the inventory, or in compliance with the inventory

**US. EPA EPCRA SARA Title III**
